

ESLAM ABDELBASSET

SENIOR BACKEND DEVELOPER

Cairo, Egypt | +20 106 083 8210 | eslamabdelbasset1@gmail.com
[linkedin.com/in/eslamabdelbasset](https://www.linkedin.com/in/eslamabdelbasset) | github.com/eslamabdelbasset1

PROFESSIONAL SUMMARY

Highly accomplished Senior Backend Developer and Full Stack Developer with 5+ years of experience architecting distributed enterprise systems, high-performance APIs, and multi-tenant SaaS platforms. Expert in PHP, the Laravel ecosystem, Vue.js, and cloud infrastructure. Proven track record of scaling database performance by 40%, automating complex business workflows, and deploying high-availability products serving thousands of concurrent users. Adept at mentoring engineering teams, applying SOLID and Clean Architecture principles, and converting complex business challenges into seamless, secure, and production-ready applications.

SKILLS

Languages & Runtimes	PHP 8+, JavaScript (ES6+), TypeScript, Node.js, Python, C++
Frameworks & Libraries	Laravel, Livewire, Vue.js, Nuxt.js, Symfony, Angular, Tailwind CSS, Bootstrap
Databases & Caching	MySQL, PostgreSQL, SQLite, Redis, MongoDB, Eloquent ORM, Query Optimization
DevOps & Cloud	Docker, AWS, Linux/Ubuntu, Nginx, Apache, SSH, Bash Scripting, CI/CD Pipelines
Core Specializations	Multi-Tenant SaaS, System Design, API Security, DDD, ZATCA e-Invoicing, WebSockets

PROFESSIONAL EXPERIENCE

Loc Camp – Senior Backend Developer

Oct 2025 – Present

Al Jizah, Egypt

- Architect and scale high-throughput server-side infrastructure and RESTful APIs using Laravel and PHP 8+, handling concurrent volumes with sub-100ms response latencies.
- Design and implement robust caching layers using Redis and Laravel Cache, reducing database query overhead by 50% and accelerating page loading speeds.
- Engineer real-time event broadcasting and instant push notification systems using Laravel Echo, Pusher, and ShouldBroadcastNow interfaces.
- Standardize Nginx configurations and maintain secure, highly-available Ubuntu production environments on cloud instances via SSH protocol.
- Champion clean-code standards, Domain-Driven Design (DDD) principles, and rigid code-review workflows, reducing technical debt by 30%.

Const Tech – Senior Backend Developer

Aug 2025 – Oct 2025

Riyadh, Saudi Arabia (Remote)

- Contracted as Senior Backend Consultant to spearhead system optimization and architectural scaling for high-traffic enterprise platforms in the Saudi market.
- Diagnosed and resolved critical database bottlenecks by optimizing complex SQL queries and Eloquent relationships, resulting in a 40% performance boost.
- Developed secure, standardized RESTful API endpoints for external integrations with third-party enterprise business systems.
- Collaborated closely with product stakeholders to deliver resilient, production-ready modules under aggressive release timelines.

Alshamel Holding – Senior Backend Developer

Apr 2024 – Aug 2025
Kuwait City, Kuwait (Remote)

- Led end-to-end design and system architecture for a multi-tenant SaaS ERP platform covering 8+ enterprise domains — Real Estate, HR, HMS, CRM, Inventory, and Finance.
- Designed and built scalable RESTful APIs authenticated with Laravel Sanctum/JWT, serving modular Vue.js front-end interfaces.
- Optimized ERP database schemas and query patterns, cutting server load by 40% and increasing data consistency.
- Engineered custom workflows that streamlined administrative operations by 60%, serving over 5 internal departments.
- Deployed ERP instances on Linux virtual servers using custom CI/CD pipelines, Docker containers, and Nginx.

Ibtikarat – Mid-Level Backend Developer

Dec 2023 – Apr 2024
Cairo, Egypt

- Developed high-performance web applications and integrated secure payment gateways (Stripe, local e-wallets) to handle transaction routing.
- Engineered secure, low-latency API frameworks with JWT authorization and scoped authentication.
- Crafted complex relational database schemas in MySQL, optimizing queries to improve data retrieval speeds by 35%.

Sneakers Dubai – Mid-Level Full Stack Developer & Designer

Mar 2021 – Dec 2023
Dubai, UAE (Remote / Freelance)

- Spearheaded full-stack engineering, performance customization, and visual branding for the flagship e-commerce store.
- Developed responsive front-end layouts and customized checkout pipelines, boosting digital sales conversions by 25%.
- Managed theme customization, plugin integrations, and full SEO optimization, increasing organic traffic by 40%.

Impact Studios – Junior Full Stack Developer — Built responsive web interfaces for international clients; supported CI/CD deployments on Linux/Nginx/Apache environments.

Mar 2020 – Feb 2021
United Kingdom (Remote)

FEATURED PROJECTS & PRODUCTS

Layout International

layoutintl.com

Enterprise publishing infrastructure unifying print and digital newsroom workflows. Integrated robust Laravel microservices, Vue.js interfaces, and AI-driven content lifecycle tools.

Tog.sa — Cloud Accounting & Inventory SaaS

tog.sa

ZATCA-compliant e-invoicing SaaS for the Saudi market. Implemented secure billing calculators, dynamic inventory workflows, and full ERP synchronization modules.

AliBash URL Shortener

s.alibash.com

High-performance link analytics platform featuring real-time click tracking, geolocation analytics, and dynamically generated custom QR codes.

EgyptAir Administrative Portal

Internal Enterprise System

Digitized and automated administrative workflows for the Air Hospitality Sector. Reduced processing times for employee evaluations and document lifecycles by 45% for 200+ staff.

EDUCATION & DIPLOMA CREDENTIALS

Modern Academy for Computer Science & Technology – Bachelor of Computer Science

2018 – 2022
Cairo, Egypt

Route Academy – Full Stack Development Diploma

2020 – 2021
Giza, Egypt

Modern Academy for Computer Science & Technology – C++ Programming Diploma

2017 – 2018
Cairo, Egypt

LANGUAGES

Arabic: Native Speaker | English: Very Good
